

INTERCULTURAL DIALOGUE

Culture e Fede Vol. XIX 2011 N.3

Vol. XIX 2011 N. 3

Exploring the relation between faith and culture, especially through intercultural contexts. How does faith affect specific demographics? The position expressed in this volume is that evangelization contributes to development among aboriginals, for example. This is relevant to all people, for spreading the Gospel can increase solidarity, and as a result, promote justice, peace, and respect for life.
