

ADULT STEM CELLS

Culture e Fede Vol. XX 2012 N.1

Vol. XX 2012 N.1

Ethics, healing, hope and collaboration were the focal points of a Vatican conference on Adult Stem Cell research, fifty years on from the first published article on the theme. Interdisciplinary dialogue between a variety of institutions and diversely motivated professional partners marked this event, some of whose key speeches and ideas are contained in this edition of the Review.
